## IMPORTANT INDUSTRY

### International Tool Steel Factory Only One In Canada.

Mr. W. J. Shaw, superintendent of the International Tool Steel Co. was in town Monday looking over the progress of work on the plant. The building is expected to be ready before June 1st, and the installation of plant and machinery will proceed as rapidly as possible.

Few people realize the importance of this industry. It is the only factory in Canada manufacturing tool steel, and the steel will be equal to the finest in the world and much cheaper. Twenty furnaces will be set up as speedily as possible.

sible. These will produce twice as much high carbon tool steel as any crucible steel plant in America and of a grade superior to any not made from materials imported from Norway and Sweden. Even the steels used at Sheffield for the manufacture of cutlery require Norway and Sweden irons as a basis. Taking these matters into consideration it is right up to the Board of Trade to let the facts be known to the manufacturing world with a view of placing the facilities of Port Hope before all workers not only of steel but other materials.

There is nothing to hinder Port Hope from becoming the Sheffield of America. It is near the coal fields, has cheap power, unrivalled transportation facilities by land and water. It is in direct line for the Northwest trade, now by two transcontinental lines of railway and soon to have a third.

What Port Hope needs is a thorough booming.

## RESTAURANT BY-LAW WAS BLOCKED

On the Second Reading — Seymour Power Co. Offers Current For 90 Street Lamps Free

The regular meeting of the Town Council was held last evening and the absentees were Messrs. Hancock and Ambrose.

Communications were received from H. T. Bush on behalf of the Hospital Committee asking for a portion of the hill in the Town Park for the site of the hospital.

From the Salvation Army asking for aid.

From the First Church of Christ Science asking for the free use of the Town Hall on May 11th, for a lecture.

From J. G. G. Kerry President of the Seymour Power Co. stating that in response to an enquiry from the Trenton Board of Trade under date of the 17th inst., the Company has decided to make the following contribution to advertising funds of the various towns in the Trent River District.

The Company will place at the disposal of the Town Council or of the Board of Trade as may be mutually arranged by the two bodies mentioned, electric current free of all expense to them to an amount sufficient to light up one 60 watt Tungsten lamp for each fifty inhabitants of the Town as shown by the returns from the 1911 census provided that the population as returned is not in excess of 5,000. If the population is in excess of 5,000 current will be supplied on a basis of one lamp to each 100 inhabitants over and above 5,000. The current so supplied is to be used for special advertising purposes only and supply free of charge will continue three years.

Without wishing in any way to direct the application of the current to be furnished as above outlined, we would ask to reserve the right of approving the advertising scheme selected by the town. It has occurred to the Company that special illumination of the main business streets of the town and of the roads leading to railway stations might furnish the most effective application of this power for advertising purposes.

In addition to the above the Company would at its own expense arrange for the suitable illumination of its own offices, power houses, and sub-stations and particularly so where such illumination can be used to advertise with advantage.

The Mayor explained that the Seymour Power Co. would supply the town with current free of charge for 90 sixty watt tungsten lamps. These lamps would be used as an advertisement for the company and they were desirous of having them placed on Walton street, John street leading to the station and Mill street to the wharf. The town would have to supply the poles, wires and lamps and pay the cost of installing.

The Mayor further stated that the Company desired to supply the Standard Ideal with power and wanted to pole Cavan street to Maitland street, thence through

Brodgin's lane out near the American Hotel and down Queen street to the factory.

From the Baseball Club asking for the use of the Town Hall for the Baseball dance on May 3th.

From W. J. Robertson and W. B. Perry stating that they had made a careful examination of the books and vouchers of the town and found them correct.

street for twenty-six years and during all that time a new walk had not been built. This portion of the street was included in the list for concrete walks this year but at the last minute was cut off. The sidewalk at the present time was by far the poorest in town and he was certain if the Council inspected it his request would be granted.

Mr. Fulford introduced the restaurant bylaw and the vote on the resolution to give the bylaw its first reading resulted in a tie as follows: Yeas—Patterson, Fulford and Long.

Nays—W. A. Russell, R. G. Russell and Beggs.

The Mayor declared the resolution carried.

To give a bylaw three readings on the same evening it is necessary to suspend section 33 of bylaw 1004 and this requires a two-thirds majority of the members present. When the resolution to suspend this section was introduced the vote resulted the same as on the former and the resolution was lost.

Mr. W. A. Russell stated that there should be no objection to the restaurants, plain eating houses, being open on Sunday and the bylaw might as well be blocked on its first reading as any other.

Mr. Beggs and Mr. R. G. Russell asked to have the bylaw read over previous to the voting on the suspension of clause 33.

The Mayor explained if they voted for the suspension of that clause they would hear the bylaw in its second reading.

"But it is too late then to stop the passing of it," remarked Mr. Beggs. "We want to know what we are voting on."

"Well then a special meeting tomorrow night to give the bylaw its second reading," remarked His Worship.

The use of the Town Hall was granted to the First Church of Christ Science for May 11th and to the Baseball Club on May 5th, both parties to pay a rental of \$2.50.

Moved by Mr. Long seconded by Mr. Fulford that the Treasurer be instructed to write off his books the amount included on the list hereto attached in order that the treasurer may be in a position to close his books for the year 1910. Carried.

The old scales at the Market Square were sold to Walker & Edwards for \$40.00.

Moved by Mr. Long, seconded by Mr. Fulford, that His Worship the Mayor sign an order in the Treasurer in favor of C. A. Merrifield for the sum of \$10.00, said amount being refund of business tax for 1907, this amount having been paid twice. Carried.

Mr. Long explained that the Finance Committee had about a dozen meetings with the late tax collector and Mr. Merrifield and after carefully going over the books they found that Mr. Merrifield had paid his business tax twice in 1907 and was entitled to a refund for that amount.

Moved by Mr. Fulford, seconded by Mr. Beggs that His Worship the Mayor sign an order on the Treasurer in favor of A. J. Cheshire for the sum of \$5.84, said amount being overpaid for 1909 taxes.

When the treasurer was balancing the accounts between himself and the Tax Collector, he found that the latter had overpaid him \$5.84.

Mr. Long stated that considerable damage was being done to the lighthouse and freight sheds at the wharf. The other night a number of young men and boys placed a dozen or more empty bottles along near the freight sheds and amused themselves shooting at these with revolvers. Nearly all the glass in the lighthouse had been broken. He intended to take the necessary steps to give Harbor Master Colwill authority to arrest these persons and at the next meeting would introduce a by-law appointing Mr. Colwill a constable.

PORT HOPE, MAY 2, 1911

## A TROUBLESOME MISGIVING

(Continued from Yesterday)

So strangely had circumstances moulded him, that he could not brood on a desire of spiritual affinities, could not, as is natural to most cultivated men, inflame himself with the ardour of soul reaching to soul; he was preoccupied with the contemplation of qualities which characterise a class. The sense of social distinctions was so burnt into him, that he could not be affected by any pictured charm of mind or person in a woman who had not the stamp of gentle birth and breeding. If once he were admitted to the intimacy of such women, then indeed the canons of selection would have with him; no man more capable of disinterested choice. Till then the ideal which possessed him was merely such an assemblage of qualities as would excite the democrat to disdain or fury.

In Sidwell Warricombe this ideal found an embodiment; but Godwin did not thereupon come to the conclusion that Sidwell was the wife he desired. Her influence had the effect of deciding his career, but he neither imagined himself in love with her, nor tried to believe that he might win her love if he set himself to the endeavor. For the first time he was admitted to familiar intercourse with a woman whom he could make the object of his worship. He thought much of her; day and night her figure stood before him; and this had continued now for half a year. Still he neither was, nor dreamt himself in love with her. Before long his acquaintance would include many of her like and at any moment Sidwell might pale in the splendour of another's loveliness.

But what reasoning could defend the winning of a wife by false pretences? This, his final aim, could hardly be achieved without grave wrong to the person whose welfare must in the nature of things be a prime motive with him. The deception he had practised must sooner or later be discovered; lifelong hypocrisy was incompatible with perfect marriage; some day he must either involve his wife in a system of dishonesty, or with her consent relinquish the false career, and find his happiness in the obscurity to which he would then be relegated. Admit the wrong. Grant that some woman whom he loved supremely must, on his account, pass through a harsh trial—would it not be in his power to compensate her amply? The wife whom he imagined (his idealism in this matter was of a crudity which made the strangest contrast with his habits of thought on every other subject) would be ruled by her emotions, and that part of her nature would be wholly under his governance. Religious fanaticism could not exist in her, for in that case she would never have attracted him. Little by little she would learn to think as he did, and her devotedness must lead her to pardon his deliberate insincerities. Godwin had absolute faith in his power of dominating the woman whom he should inspire with tenderness. This was a feature of his egoism, the explanation of those manifold inconsistencies inseparable from his tortuous design. He regarded his love as something so rare, so vehement, so exalting, that its bestowal must seem an abundant recompense for any pain of which he was the cause.

Thus, with perfect sincerity of argument, did Godwin Peak face the undertaking to which he was

committed. Incidents might perturb him, but his position was no longer a cause of uneasiness—save indeed, at those moments when he feared lest any of his old acquaintances might hear of him before time was ripe. This was a source of anxiety, but inevitable; one of risks he had dared.

Had it seemed possible, he would have kept even from his mother the secret of his residence at Exeter; but this would have necessitated the establishment of some indirect means of communication with her, a troublesome and uncertain expedient. He shrank from leaving her in ignorance of his whereabouts, and from passing a year or two without knowledge of her condition. And, on the whole, there could not be much danger in this correspondence. The Moxeys, who alone of his friends had ever been connected with Twybridge, were now absolutely without interests in that quarter, from them he had stolen away only acquainting Christian at the last moment in a short letter, with his departure from London. It will be a long time before we again see each other—at least I think so. Don't trouble your head about me. I can't promise to write, and shall be sorry not to hear how things go with you; but may all happen as you wish! In the same way he had dealt with Earwaker, except that his letter to Staple Inn was much longer, and contained hints which the philosophic journalist might perchance truly interpret.

## HAIR HEALTH

If you have Scalp or Hair Trouble, Take Advantage of this Offer.

I could not afford to so strongly endorse Rexall "93" Hair Tonic and continue to sell it as I do, if it did not do all I claim it will. Should my enthusiasm carry me away, and Rexall "93" Hair Tonic not give entire satisfaction to the users, they would lose faith in me and my statements, and in consequence my business prestige would suffer.

I assure you that if your hair is beginning to unnaturally fall out, or if you have any scalp trouble, Rexall "93" Hair Tonic will promptly eradicate dandruff, stimulate hair growth and prevent premature baldness.

My faith in Rexall "93" Hair Tonic is so strong that I ask you to try it on my positive guarantee that your money will be cheerfully refunded if it does not do as I claim. Two sizes, 50c. and \$1.00. Sold only at my store—The Rexall Store, H. W. Mitchell, Phm. B.

## TAXING BAR RECEIPTS

The New Law Came Into Force Monday.

Five Per Cent of Receipts Over \$50 Goes to Government.

Yesterday was a memorable day in the history of Ontario hotelmen, for it inaugurates the 5 per cent tax to the Government on all bar receipts over \$40 per day in large cities and \$150 per day in the smaller places.

This tax is on gross receipts, and it includes sales of cigars, cigarettes, tobacco or drinks or drinkable liquids, other than intoxicating liquor or of any service or privilege when made over at, in or from the bar and bar room.

## Judgment Reserved.

At Toronto before Moss, C.J.O., Garrow, J. A., McLaren, J. A., the case of Bigelow vs. Powers came up—I. F. Hellmuth, K.C., and E. N. Armour, for defendants; D. B. Simpson, K.C., and J. A. Armstrong (Cobourg) for plaintiff.

An appeal by defendants from the judgment of Magee, J., of March 30, 1910.

Plaintiff, a shareholder in the Clarke Pioneer Threshing Company, brought action for damages for negligence in operating a threshing machine whereby the barn of the plaintiff and a large quantity of farm produce and some farm implements and stock were burned. At the trial judgment was awarded plaintiff against defendants, the other 26 members of the syndicate and the company, for \$3,687.50 and costs. Appeal argued and judgment reserved.

## The Tight Brigade.

Half a leg, half a leg,  
Half a leg onward,  
All in pursuit of style  
Hobbl'd the Four Hundred.  
Forward, the tight brigade;  
Charge! I's the style, they said,  
Oh, what they price they paid!  
Hobbl'd Four Hundred.

Forward the tight brigade;  
Was there a man dismayed  
At wifery so arrayed?  
Someone had blundered,  
Theirs not to make reply;  
Theirs not to reason why;  
Theirs but to see and buy;  
Funny Four Hundred.

Hobbles to right of them;  
Hobbles to left of them;  
Hobbles all sides of them;  
What if they sundered?  
Maude, Bessie, Kit and Bell,  
Wrapped like an umbrell,  
Should one have tripped and fell,  
She would have looked like—  
Well, less than Four Hundred.

When can their glory fade?  
Oh, what a stir they made,  
All the world wondered.  
What more could be displayed?  
Dear, naughty Tight Brigade—  
Dear old Four Hundred?

## A, CARNEGIE AS A REAL BENEFACCTOR

The "Laird of Skibo" Gave \$89,400 to Ontario's Libraries During the Year.

## BOWMANVILLE IN MIDLAND LEAGUE

Bowmanville News: From the large attendance and enthusiasm shown at the organization meeting of the baseball club at the Balmoral Hotel Wednesday night, Bowmanville fans may look forward to a very successful season of baseball. Mr. F. H. Morris was chosen chairman of the meeting and Mr. Frank Bottrell acted as secretary. The following officers were elected: Hon. Pres. J. Moriarity; Pres., Charles H. Anderson; 1st vice D. C. Betts; 2nd vice, J. A. McClellan; Sec.-Treas., B. A. Sisler; Manager F. H. Morris; Managing Committee, W. Kavagh, J. Williams, A. Mingeaud, W. J. Bagnell, Official scorer, L. Bottrell.

The Goodyear Tire & Rubber Co. has promised to fix up a ball field with a skin diamond in the field adjoining their factory. This should make an excellent place as the ground is quite level as well as being central. If suitable arrangements can be made a team will be entered in the Midland League, which is now composed of Lindsay, Peterboro, Port Hope and Cobourg. The team will be known as the "Goodyears of Bowmanville."

ABOUT FIREARMS.—The new law called the "Offensive Weapons Act," which came into force the other day will work for the good of the country, and more particularly of the towns, and villages. It taboos the small boys air gun; as to acquire, use or keep one a permit is now required, and besides it puts a ban on the carrying of revolvers or pistols, and persons suspected of carrying weapons may be searched by a Constable without the formality of a warrant.

The Elmview Farmers' Club will hold their next meeting at the home of Mr. Fred Nixons, Precious Corners, May 9th. Subject for discussion will be Horse Breeding, Fruit and Vegetable Garden and Troublesome Insects. Something good is expected. All interested will be made welcome.

THEIR RATE OF PAY.—The census enumerators of South Ontario, North Ontario, Durham and East and West Northumberland will get one cent per name for each person enumerated in the population schedule and \$1.25 each in addition there to by way of stated allowance.

A JOB FOR MOSES.—The Fenelon Falls Gazette says:—"Mr. Moses Baritz has returned from England. Mr. Baritz is the gentleman who created quite a stir by publicly insisting that a Socialist could not be a Christian. He might just as reasonably assert that opponents of Socialism cannot be atheists. The trouble with fellows like Baritz is that they have rats in their garrets. On an African farm, where they can't do any harm, they should stay and feed carrots to parrots."

## TENDERS FOR DREDGING

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Public Building, Uxbridge, Ontario," will be received at this office until 4 p.m., on Monday, May 22nd, 1911, for the erection of a Public Building at Uxbridge.

Plans, specification and form of contract can be seen and forms of tender obtained at this Department, on application to Mr. Thomas A. Hastings, clerk of works, postal station F, Yonge street, Toronto, Ontario, and at the post office at Uxbridge.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms the actual signature, the nature of the occupation and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the tender which will be forfeited if the person tendering declines to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender is not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,  
**R. C. DECROCHERS,**  
Secretary.

Department of Public Works,  
Ottawa, April 25, 1911.

Newspapers will not be paid for this advertisement if they insert it without authority from this Department.

## FIVE YEAR TREATY

Anglo-American Peace Pact Will Soon Be Signed.

ADVANCE ON THAT OF 1907

London Daily Telegraph Forecasting Contents of New Convention Says

There Will Be No Clause Barring Matters of Vital Interest or National Honor From Arbitration—Many Formalities Required

London, May 2.—The Daily Telegraph claims authority to state that the new Anglo-American peace convention is not likely to be signed for at least a fortnight, but that sufficient progress has been made to warrant a forecast of its subject matter.

According to The Telegraph, it is understood the agreement is to be for five years and that it will be a great advance over the treaty of 1907 and all similar treaties heretofore negotiated between first-class powers, inasmuch as it will contain no clause excluding matters of vital interest and affecting the independence of honor of the contracting states from arbitration.

Before the reference of any dispute to The Hague Court, it will be provided that the contracting parties shall conclude a special agreement clearly defining the matter in dispute, the scope of the arbitrators' powers and the period to be fixed for the formation of the arbitral tribunal. Such agreements on the part of the United States will be made by the President, with the advice and consent of the Senate, the British Government reserving the right, before concluding such an agreement in any matter affecting the vital interests of any self-governing dominion, to obtain the Dominion Government's concurrence therein.

\$500,000 Worth of Jewels.

New York, May 2.—Customs officers, private detectives and the police department here, were all busy yesterday working on information from Scotland Yard that jewelry worth \$500,000 and upwards, stolen in great part from American in England and on the continent is being marketed here piecemeal by an international band of crooks.

Some of the band are said to be women, and the understanding was that New York is supposed to be the clearing house for their operations. The arrest of the man believed to be the head "fence" is momentarily expected.

Mustn't Smuggle Furs.

Washington, May 2.—Chief Wilkie, acting head of the special customs bureau, warns all Americans who intend to buy furs in Canada this summer to make sure that their purchases will be delivered in a legitimate manner and not smuggled in. Many Americans who bought furs in good faith last year in Toronto, Montreal and Quebec, expecting them to be delivered duty free, have been obliged to pay heavy penalties.

Chief Wilkie says all who make purchases abroad to be delivered duty paid, should take receipts showing that fact.

Indian Burned to Death.

Montreal, May 2.—Mrs. Saiswenre Stacey, the 66-year-old wife of Taronata Stacey, a venerable Indian resident of Caughnawaga, was burned to death in the destruction of her home by fire yesterday morning between two and three o'clock. Her husband, a man of 72, escaped with his life only, by leaping from a second storey window. He is suffering from a badly contused shoulder and internal injuries.

Germany's Antarctic Expedition.

Hamburg, May 2.—The German Antarctic expedition will set sail on Wednesday on the steamer Deutschland. Yesterday Prince Henry of Prussia, made a final inspection of the vessel, and later gave a farewell luncheon for Commander Filchner.

Senator Gets \$8,000 Job.

Ottawa, May 2.—Sir Wilfrid Laurier in the House yesterday afternoon announced the appointment of Senator Roy, of Edmonton, as Canadian representative in Paris. The appointment was foreshadowed some time ago. The salary is \$8,000.

## ENDING THE DEBATE

Last Liberal Speaker on Reciprocity Is Heard in House.

## EXODUS TO UNITED STATES

Official American Figures Are Read in Commons and an Enquiry Into the Emigration from Canada Is Determined Upon — Verville Will Speak To-day and Then the Obstructionists Have Floor.

Ottawa, May 2.—The last Liberal word on the reciprocity debate was spoken last night, and was a significant and memorable one. Amid repeated outbursts of cheering, which kept the Government benches rattling continuously, Mr. J. G. Turfitt delivered the final message from the west with characteristic western frankness. A few weeks ago the Conservatives were predicting that the member for Assiniboia would follow Hon. Clifford Sifton in opposition to the reciprocity agreement.

Last night they got their answer, when the stalwart westerner spoke the closing word for the Liberal party. It is expected that Mr. Verville will speak to-day for the Labor interests, and the further continuance of the debate will be relegated to the obstructionists in the Opposition ranks. Whether the Prime Minister will be relieved in time to attend the Imperial Conference is accordingly solely the responsibility of the party which delights to flaunt its loyalty.

W. H. Sharpe of Ligar, Man., represented the Opposition yesterday. He voiced the needs of the west. Terminal elevators, a railway to Hudson Bay, chilled meat facilities, these things he demanded in the interests of the farmers. With these things to aid them, the question of tariff wall against farm products would be of no moment to the farmers. He showed that the fruit growers of British Columbia and the east, for instance, would have to assist the western farmers to get these facilities, yet the agreement would ruin the fruit industry of Canada.

Before the House rose Mr. Lennox intimated that the Farmers' Bank case would be reopened to-day.

When the House met yesterday Hon. Frank Oliver said: "I desire, Mr. Speaker, to call your attention to a matter which was brought to the attention of the House on Friday last by the Prime Minister, who referred to an article which had appeared in a Toronto paper, in which no names were mentioned. Since that time articles have appeared in other papers in which my name has been mentioned. I have not yet had an opportunity to consider these articles, but I hope to be able to make some observations on the matter to-morrow."

George H. Bradbury (Selkirk), after referring to the appointment of a royal commissioner by the Manitoba Government to discover if the titles to the property of the St. Peter's Indians, recently sold, were good, said that at a decision it was necessary to have the original documents, and asked if the Government would place these at the disposal of the commissioner.

Mr. Oliver said he was not desirous of impeding the work of the commission, but he had a certain responsibility regarding the documents. He promised a statement to-day.

On the motion to go into committee of ways and means R. L. Borden discussed the question of statistics of emigration from Canada to the United States, and from the United States to Canada. He quoted American statistics to show that during the year 1910, 94,006 Canadians entered the United States as emigrants. He said that if these figures were correct the balance in favor of Canada was a little less than 22,000. This was hardly what he would have expected.

Mr. Borden enquired if it was so that no statistics were available in Canada as to the number of departures to the United States.

Mr. Oliver nodded his assent. Mr. Borden expressed his belief that it would be advisable to have comprehensive statistics as to the number of Canadians who went over to the United States. The people had been led to believe that this emigration had almost ceased, but evidently their belief was not based on a sure foundation.

Mr. Oliver said no doubt there was a considerable reciprocity in population. There had been in the past and it would doubtless continue in the future. Nevertheless the Department considered the Canadian statistics of arrivals to be fairly accurate. To adopt the proposal suggested by Mr. Borden would mean a considerable increase in the cost of the service, which might not produce commensurate results. If authorized to do so by Parliament, the Department would be willing to undertake the work, but as no policy had been proposed which would prevent this immigration he doubted the expediency of the proposal.

Mr. Foster said that if the statistics of the emigration from Canada to the United States were given there would be a different tale to tell. It would be shown that there was only a small net gain. We were pluming ourselves on a basis which was not substantial. In the interests of true knowledge we should have the information.

Hon. Wm. Paterson suggested that household effects would provide a rough test. He found that household effects to the value of \$2,760,137 had been taken into the United States by Canadians last year, whereas the value of household effects brought into Canada was \$7,613,553. While not conclusive, he considered that these figures might indicate that the figures quoted by Mr. Borden were not wanted.

Richard Blain (Peel) said that this was a serious matter, the figures showing that we were sending as many people to the United States as that country was sending to Canada. Dr. Schaffner said that the figures

quoted by Mr. Paterson could be explained by the fact that the new arrivals in Western Canada were prosperous American farmers, with many effects, while on the other hand the movement from the Maritime Provinces to the United States was made up largely of young people. He said there was plenty of room for these people in the west.

C. A. Magrath said this was the most important of all questions, because it affected the life blood of the nation. It was highly desirable, he said, that we should have more complete and accurate statistics so that we would know the exact condition of affairs.

## REBELS ADVANCING.

Chinese Revolutionary Forces Are Routing the Troops.

Hong Kong, May 2.—Rebellion, brigandage, and anarchy are stalking through the western half of Kwang Tung Province, murdering, pillaging, and burning. The loyal troops are fighting desperately to crush the uprising, the seriousness of which is revealed in further despatches from Canton yesterday.

While the fighting was progressing in the streets Chinese gunboats patrolling the west river fired upon several parties of rebels, slaughtering 300 of them.

Retreating to the countryside the revolutionaries attacked and captured Sam Shui, thirty miles west of Canton, and murdered the prefect. The troops were put to flight, and the rebels moved on to Wen Chow and Woo Chow, both of which towns they took after slight resistance.

The viceroy of Canton, who took refuge on a gunboat after his palace was burned Wednesday night, has ordered troops to pursue the rebels in the country. The authorities appear from the latest advices to be in control at Canton. The gates of the city are closed, and no one is allowed to enter. A vigorous round-up of suspects is being made. Seven gunboats are anchored off the city.

The uprising began with a plot against the throne by anti-Manchus, who went to Canton in great numbers from Hong Kong. Their object was betrayed and the revolutionary movement was prematurely begun following an attempt to arrest the leaders. Successfully coped with in Canton, the revolutionaries appear to be abandoning that city and concentrating their attacks on the towns to the north and west. There are 30,000 troops in the capital of the province, and upon the loyalty of these the hope of the Government depends. Many of the troops have proved their faithfulness, and this appears to have influenced the greater body, suspected of disloyalty, to still obey the commands of their officers.

## Rush to B. C. Fruit Lands.

Montreal, May 2.—Private despatches from Vancouver state that the rush has already commenced to the fertile fruit lands of the Columbia Valley in the Windermere district, south of Golden. This is where the C.P.R. has under construction the Kootenay Central Railway, and it is expected that this line will be a great influence in the opening up of the country. Fruit, vegetables, poultry, etc., can be placed on the train at night, and reach Calgary next morning.

Three steamers will ply on the Columbia River this year from Golden to the Windermere district, carrying passengers and freight, and it is not improbable that the C.P.R. will erect a new hotel in the near future overlooking Windermere Lake.

## Anglo-German Friendship.

London, May 2.—"The Anglo-German Friendship Society" was formally launched at a meeting in the Mansion House yesterday.

The object of the organization is to dissipate any ill-will and suspicion that may exist between the two nations, and the speaker referred to the movement as a fitting compliment to the great Anglo-American meeting at Guild Hall.

The Lord Mayor presided and the presence of such men as the Duke of Argyll, Sir Frederick C. Lascelles, formerly British ambassador at Berlin, and the Earl of Aberdeen, Lord Lieutenant of Ireland, all of whom are office holders in the new society, guarantees an earnest effort to promote more cordial popular relations between the two powers.

## Morgan After Telephones.

Cincinnati, O., May 2.—With the buying of the Bowling Green Home Telephone Co., in Kentucky, the first of a series of large purchases, which will entail an expenditure of \$25,000,000, has just been completed. The lines, which have practically been secured, are in the south and west.

J. Pierpont Morgan is said to be back of this project. Certain telephone officials in Cincinnati say he intends eventually to secure every independent company in this country and that he is now in control of a majority of the stock of the Bell Telephone Co.

## Ottawa's New Health Officer.

Ottawa, May 2.—The Board of Health has declined to make a selection from the list of almost a dozen applicants for medical health officer. The choice was left to the City Council last night, but the board recommends that the salary be \$4,000. The appointee must hold an Ontario medical certificate, which puts out of the running about half of the candidates.

## Alfonso Gravely Ill.

Paris, May 2.—L'Intransigeant claims that King Alfonso is gravely ill with tuberculosis, and that at a recent consultation of his physicians it was decided that urgent measures of treatment were necessary, and also that the Spanish monarch should pass the coming winter at Leysin, Switzerland, where the climate is better adapted to his condition.

## St. John Carpenters Want More.

St. John, N.B., May 2.—The union carpenters put into effect yesterday a \$3 day rate. Some employers are paying it; others are not.

## MAY DAY IN PARIS

Troops and Police Have Lively Time With Rioters.

## ALL IS QUIET IN LONDON

World's Metropolis Has a Very Poor Showing of Workers in Its Demonstration — Nightfall Sees Some Lively Collisions on the Streets of the French Capital—Internationalist Feeling Strong.

Paris, May 2.—During the daylight hours the extra troops and those from the Paris garrison and the police had little trouble with the crowds of workmen who gathered to celebrate May Day with great demonstrations, but late in the evening things took on a livelier aspect, and there were many collisions in the streets. About 7 o'clock in the evening hundreds of thousands of persons, for the most part spectators, gathered in the Place de la Concorde and the adjacent streets. The troops and police finally succeeded in dispersing them, and this district and the Champs Elysees took on their habitual aspect.

M. Lepine, prefect of Paris, announced that the disturbances had nowhere assumed a serious character, and that this May 1 had passed more quietly than ever before known.

About nine o'clock, however, several thousand manifestants reassembled before the big St. Paul Riding School, near the Bastille, and listened to internationalist and anti-militarist speeches by the revolutionary leaders. Large forces of police and troops held the surrounding streets. A German workman, wearing a tri-color rosette in his buttonhole, declared amidst thunders of applause, in the name of his comrades, that in case of war the German workers would refuse to raise their weapons against their French comrades. The close of the meeting was marked by serious disturbances. The manifestants fought the police tooth and nail in the narrow streets of the old quarter for an hour before they were finally dispersed.

Many of the rioters were knocked down and trampled on by the chargers. A score of police were injured and many of the rioters were arrested. Despatches from the provinces say that the customary labor celebration was held everywhere. They were practically without incident, except at St. Etienne, where the manifestants solemnly burned a copy of the Workmen's Pension Law in front of the City Hall. The troops had some trouble in dispersing them, and a number of the workmen were hurt or arrested.

## Quiet Day in London

London, May 2.—No disorder accompanied the May Day demonstration here yesterday. A procession bearing red banners, bands playing the Marseillaise, marched from Victoria Embankment to Hyde Park. About 15,000 persons, more than half of them aliens, gathered there. Tom Mann, vice-president of the Workers' Union, who was the principal speaker, said it was shameful that the attendance of the workers was so small.

## American Railway Men Out.

Chicago, May 2.—Maintenance of way employees of six railroads, numbering 2,500 men, struck last night when their demands for recognition of the union and a wage increase were refused. The total number of men involved in strikes and lockouts in and near Chicago, as a result of May Day labor troubles, is estimated at 12,000.

## SHOULD END IT.

Unionist Says Rush-Bagot Agreement Be Abrogated.

London, May 2.—A question asked in the House of Commons yesterday based on the campaign now being engineered by The London Morning Post, representative of the ultra tariff reform circles had reference to the Rush-Bagot treaty concerning war vessels on the Great Lakes.

Henry Page Croft, Unionist member for Christchurch, alleged that the treaty had been broken persistently as regards the number of ships and their tonnage, making the situation one of danger, because it must cause misunderstandings between Canada and the United States. He urged that the Government recommend that Canada abrogate the treaty.

Colonial Secretary Harcourt staved off the question by asking that the usual notice be given.

## King Favors Earlier Hours.

London, May 2.—Following the ban on the hobble skirt by the Lord Chamberlain, inspired by the Queen, society is eagerly discussing King George's direction that future courts are to be held one hour earlier. The guests will begin to arrive at half-past eight, instead of half-past nine. The King and Queen will enter the throne room at half-past nine, instead of at half-past ten, which will permit the courts to be brought to a close at midnight instead of in the small hours.

King George is a firm believer in early hours. He told a friend recently that a man cannot expect to succeed in business if he does not begin work till the day is half over, and he cannot begin early if he is up half the night.

The ruling will have a far-reaching result, leading to 7 o'clock dinners, and theatre performances beginning at 8 o'clock sharp.

## Put Loss at \$3,500,000.

Bangor, Me., May 2.—One of the assessors said yesterday that he is of the opinion that the fire loss does not exceed \$3,500,000. Other estimates, however, place the loss much higher.

Nearly all those who lost their houses are business men, and there is practically no suffering. Mayor Mullen said: "I have received offers of help from other cities, but we shall not accept any aid until we find out that it is absolutely necessary."

Children Cry FOR FLETCHER'S CASTORIA

## ARE STILL AT IT.

Another Republican Raises the Annexation Bogey.

Washington, May 2.—Speeches on the farmers' free list bill in the House yesterday again sounded the note of Canadian annexation: traversed the whole range of argument concerning Canadian reciprocity, already disposed of by the House, and came back at times to specific attack upon or support of the free list bill, which has been pending for six days and gives promise of continuing for several more. At times less than a score of members were on the floor to hear the speech-making. Democratic Leader Underwood, at adjournment, expressed the hope that a vote may be reached Thursday or Friday, but many members wish to speak, and all desired time will be given.

Representative Madden of Illinois, in an hour's speech yesterday, touched the annexation issue.

"My hope is that if we can have closer commercial relations with the people of Canada," he said, "some day this relationship may blend the two peoples into one harmonious whole; and that the territory lying north of us may become a part of the United States, as it should be. I have always believed we should be one people, under one flag, and under one form of Government, and it will be better for us all when such a thing happens, if it ever does."

Messrs. Gillette of Massachusetts and Dyer of Missouri attacked the free list bill because it put jute bagging, used to bale cotton with, upon the free list, thereby threatening the bag-making industry of this country.

Mr. Cox of Indiana supported the bill and attacked opponents of the reciprocity measure recently passed. Mr. Rucker of Colorado, Democrat, who voted against the Canadian reciprocity bill, attacked that measure in a speech favoring the free list bill. He said he had been criticized for not abiding by the action of the Democratic caucus in favor of reciprocity, but explained that he opposed the measure because he believed it unfair to the farmer.

In a speech lasting more than three hours, Senator Stone of Missouri, in the Senate yesterday, denounced what he declared to be an unjust propaganda to defeat the Canadian reciprocity bill. The attempt, he said, was being made to alarm the American people by painting the ruin that would follow the free importation of Canadian goods, the products of cheap labor. This contention, he declared, was absolutely untrue, as he submitted statistics gathered by both governments, designed to show that both labor and live stock were higher across the border than in the United States.

When Mr. Stone concluded Senator Gallinger asserted that the Missouri Senator had proved conclusively that there would not be the reduction in the cost of living which it had been contended reciprocity would bring to the United States. Mr. Stone replied that he had not contended that in and of itself reciprocity would be of great benefit, but had undertaken to show that it would not produce great injury.

## BRIEFS FROM THE WIRES.

A fierce gale raged on Lake Huron yesterday.

The twentieth British Dreadnought was launched on the Clyde.

Sir Wilfrid Laurier has purchased six lots in the west end of Montreal.

Penetanguishene electors voted for Hydro Electric power by a large majority.

A C.P.R. train crew rescued a family named Blake from their burning dwelling at Stittsville.

The military aviator Matievitch and his brother were killed yesterday at Sebastopol while making a flight.

Lydia Fontaine and Mary Corbeau, young girls, were drowned while crossing White River, near Thetford Mines.

His Excellency Earl Grey, the Countess Grey and the Ladies Sybil and Evelyn Grey returned to Ottawa from Winnipeg yesterday afternoon.

The Liberal caucus at Ottawa discussed the question of taking over branch lines by the Intercolonial. Only a passing reference was made to reciprocity.

The Lachine Canal was thrown open yesterday and within a few minutes afterwards there had been no less than forty passes issued to vessels to pass through.

A tragedy occurred at Cambridge, P.E.I., on Saturday, when Ben Irving, a bit of rage, is alleged to have caught his aged sister by the throat and strangled her to death. Irving is said to have been insane.

## McGill Students Arrested.

Montreal, May 2.—Dan Gilmore, son of Senator Gilmore, and "Buster" Matheson, were arrested Saturday on a charge of burning the carriage occupied by Hon. Clifford Sifton at the anti-reciprocity demonstration in Montreal on March 30 last. "Bunny" Price was also charged, but he will not be in town till the hearing on Friday.

All three are McGill men, Liberals, and interrupted the procession of McGill students to the Windsor Hall the night of the Sifton meeting. They pleaded not guilty.

Russo-Chinese War Prospects.

New York, May 2.—A St. Petersburg cable says: The Russo-Chinese question is again to the front here and is causing anxiety. Gen. M. Matianoff yesterday said:

"War with China is in no way desirable, for it would be profitable to the powers who will not shed a drop of blood."

"But I believe this war will come, since the Chinese are mistaken as to their situation from a military point of view."

## Limit to Use of Photos.

Washington, May 2.—The Supreme Court of the United States yesterday upheld the constitutionality of the New York statute forbidding the use of a photograph or name of another for trade or advertising purposes without the permission of the subject.

**Mr. Harry F. Ward, of the Port Hope Brewing and Malting Company, will after May 1st be at liberty to accept any position as manager, book-keeper, traveller or agent in any capacity.** 281w

**ONE YEAR AGO.**—One year ago tonight the block at present occupied by the Bank of Toronto was totally destroyed by fire. The weather was very similar to the present.

I have about 250 Cabinet mounts—broken lots left over from Christmas trade. These were from \$3.00 to \$5.00 per dozen. To dispose of them quickly will make one dozen fine Cabinet photos for \$1.75.

Springtime is KODAK time and Williamson & Son, agents for Eastman Kodaks and Photo Materials, are prepared to furnish all that is best in photographic apparatus. Call and talk it over or send for catalogue. 281w

The Christian Guardian will be sent to end of 1911 to a new subscriber for \$1.00. It should be a weekly visitor to every Methodist home. Address William Briggs, Wesley Buildings, Toronto, Ont. Subscriptions received at the Guide Office at the above rate. 2w

**SELLING OUT.**—Mr. David Snell is going west, and will sell by auction his house and lot on Strachan street, together with his valuable household furniture, on Saturday, May 13, at 1 o'clock. See handbills for particulars. J. H. Wilson, Auct.

**DO YOU DANCE?**—The invitations have been sent out for the Baseball Dance at the Town Hall on Friday evening, May 5th. It is impossible to secure the names of all the dancers but if you have been overlooked, make it known to any of the committee and they will be pleased to provide you with an invitation.

**WAS IT REVENGE.**—There appeared to be a slight tinge of revenge in some of the Council proceedings last evening. Some time ago Councillor Ambrose and his followers introduced a by-law to repeal the restaurant by-law but the opponents voted it down on the first reading. Last night Councillor Fulford introduced the new restaurant by-law and the first reading was carried, the Mayor's vote being necessary. To give the by-law its second reading the same night, it required two thirds majority of those present and the opponents stood firm and voted it down. Now the Mayor has called a special meeting for tonight when the second reading may be passed by a majority vote.

**WAS REMEMBERED.**—Mr. Jack Aisthorpe, for many years foreman in the forging department of the Nicholson file works, severed his connection with that firm on Saturday evening. As a mark of esteem in which he was held by his fellow workmen they presented him with an address and a very handsome suit case.

**WHAT MR. DORMAY COST THE TOWN.**—The account which appears in the Finance Report of the Town Council from Miss Moore for \$29 was for board and attendance upon John Dormay. Dormay was a stranger to Port Hope and while here broke his ankle. He was without money and the town was obliged to look after him. He was at the boarding house thirty-five days during which time he was twenty-one days in bed. A charge of \$1 per day was made for that period and for the remaining fourteen days when he was able to be up 50c per day making a total of \$29.00.

**CLEAN UP.**—An exchange reminds us that the warm sunny days will no doubt be a reminder to housekeepers and business men that their premises are to be cleaned to the satisfaction of Sanitary Inspector Chief Bond. Every householder would do well to comply with the requirements. This is the season for prompt action in the interests of the public health and comfort, by making the town clean in every part we shall be protecting the public health and discouraging the house fly, which is one of the most sporadic agents of disease; dissemination breeds joyously in household filth, left to fester in the hot sun of early spring and summer.
