Our Sweaters Have Found Favor

The qualities are above and the prices below the ordinary. Beautiful color combinations.

Men's All-Wool Sweaters at \$2.00
All-Wool Sweaters with Collars \$2.50

A great assortment of Boys' Pull-over Sweaters, all-wool goods, at 50c, 75c, and 90c. Colors—Navy and Green—Navy and Red—Brown and Green—Tan and Green—Red and Navy.

WE want to remind you that it is about a whole year since you made a change to heavier underwear, and if you were fortunate enough to purchase our celebrated "can't shrink" goods we feel certain that it isn't necessary to remind you of the satisfaction it has given. Well, we're expecting to break all previous records regarding the sale of winter weight underwear of all kinds for men and boys. This week is the time to buy.

BEN OLVER & CO. The Port Hope Clothiers

"DEI GRATIA" HAS GONE FROM COINS

"What has happened to the grace of God?" asked one man of another this morning. The question was not irreverent. The questioner was talking about coins. In his hand he had one of the new Canadian "cents."

The fact is that "Dei Gratia" seems to have disappeared from the Canadian coinage, although the new King George Coins in England retain it. Samples of these show that there has been no departure from the long-established custom of putting the name of God on the coinage. Why the dies sent out to the Canadian mint are different, remains to be explained.

The King Edward coins bore the inscription, "Edward VII, Dei Gratia, Rex Imperator." The 1911 Canadian coins are stamped, George V, Rex, et Ind., Imp., that is to say, "George V., King, and Emperor of India." There is no Dei Gratia, and "D. G." which sometimes appeared on British coinage are absent.

Anglo-Saxon countries long pointed the finger of scorn at France for omitting the name of God from her coinage. A few years ago Theodore Roosevelt ordered, "In God We Trust" removed from the United States coins, but Congress promptly ordered it back again. The alteration in Canadian coins seem to have occurred without attracting attention, but it is safe to predict an agitation for the replacing of Dei Gratia on the pieces which are to be minted here.

WEDDING BELLS

GIBSON—RANKIN

St. Mark's Church was the scene of a very pretty and fashionable wedding on Monday, at high noon, when Miss Lavenia Rankin, fifth daughter of Mr. and Mrs. Robert Rankin, Barrett street, was united in marriage to the Rev. J. E. Gibson, M.A., of Toronto. The ceremony was performed by the Rector, Rev. Canon Montgomery, assisted by the Rev. Canon Daniel, and the church was filled with friends of the bride and groom.

The bride, who was given away by her father, looked exceedingly pretty in a rich gown of white satin, trimmed with baby Irish lace and pearls, and caught up with orange blossoms. Her sister, Miss Olive M. Rankin, acted as bridesmaid, and wore a dress of pink satin, trimmed with lace and caught up with pink rosebuds. Rev. Mr. Grobb, of Toronto, formerly curate in St. John's Church, here, supported the groom.

The wedding march was played by Miss Tuer, and the surpliced choir rendered several pleasing and appropriate numbers.

The groom's gift to the bride was a gold watch and chain; to the bridesmaid a gold bracelet; to the groomsmen a gold tie pin, set with pearls; and to the organist a gold and pearl brooch.

After the ceremony, the guests repaired to the home of the bride's parents, where a dainty dejeuner was served and congratulations extended to the young couple.

Rev. and Mrs. Gibson left by the flyer for Owen Sound and other western points, the bride travelling in a blue Bavarian tailored suit with hat to match. Upon their return they will reside in Toronto.

The large and costly array of beautiful gifts testified in some measure to the esteem in which the young couple are held, and their many friends join THE GUIDE in wishing them many years of happiness and prosperity.

WANTED

BY YOUNG MAN, WORK TO DO, ODD JOBS, such as attending to furnaces, gardens etc. and cutting wood. Apply at GUIDE OFFICE

ONE MILLION DOLLARS FOR A GOOD STOMACH

This Offer Should Be a Warning to Every Man And Woman

The newspapers and medical journals recently have had much to say relative to a famous millionaire's offer of a million dollars for a new stomach.

This great multi-millionaire was too busy to worry about the condition of his stomach. He allowed his dyspepsia to run from bad to worse until in the end it became incurable.

His misfortune serves as a warning to others.

Every one who suffers with dyspepsia for a few years will give everything he owns for a new stomach.

Dyspepsia is commonly caused by an abnormal state of the gastric juices, or by lack of tone in the walls of the stomach. The result is that the stomach loses its power to digest food.

We are now able to supply certain missing elements—to help to restore to the gastric juices their digestive power, and to aid in making the stomach strong and well.

We know that Rexall Dyspepsia Tablets are a most dependable remedy for disordered stomachs, indigestion, and dyspepsia.

We want you to try them and will return your money if you are not more than satisfied with the result.

Three sizes, 25cents, 50cents, and \$1.00. Remember in this community only at our store—The Rexall store. H. W. Mitchell Phm B.

AGRICULTURAL EXHIBIT

PORT HOPE FAIR

The educational Exhibit of the local branch of the department of agriculture arranged by R. S. Duncan and his assistant Mr. H. S. Fry attracted a great deal of attention and by careful observation much valuable information could be gleaned. The exhibit consisted of mounted specimens of a few of the common injurious insects and fungus diseases, in various stages of development attacking fruits, vegetables and cereals. Specimens were also gathered from various orchards in the vicinity, showing the work of various diseases and insects affecting fruit, such as Apple scab, pear scab, black knot on plums, Blister Mite on leaves of apples, the work of the railroad worm on apples, the work of the Plum Curculio on apples, Pear Blight, Black canker on apples Bark louse on twigs of apples, and San Jose scab on apples. Besides these, specimens of sprayed and unsprayed apples were shown, showing that approximately 90 per cent No 1 apples could be obtained by spraying

in conjunction with proper care of the orchard, such as fertilizing, cultivating and pruning. Whereas in the uncared for, sod bound, neglected orchards, only from 40 to 70 per cent No 1 apples could be obtained. A complete drainage system was on exhibit showing the system of drains depth and distance apart, a similar copy of which is given the farmer where a drainage survey is made on his farm. The results of drained and undrained land on, oats, barley wheat, corn and peas were shown in long glass tubes. The results were as follows:—

Spring Wheat:- drained 25 bushels per acre; undrained 15 bushels per acre.
Fall Wheat:- drained 45 bushels per acre; undrained 25 bushels per acre.
Oats:- Drained 60 per acre; undrained 37 bushels per acre.
Corn:- Drained 80 bushels per acre; undrained 56 bushels per acre.
Peas:- Drained 25 bushels per acre; undrained 15 bushels per acre.
Barley:- Drained 45 bushels per acre; undrained 27.5 bushels per acre.
Besides these a number of pruning tools, the various spray materials and fertilizers were on exhibit. Copies of some of the latest Bulletins and reports from the Department, as well as some of the important books on agricultural subjects which a farmer should have in his library were displayed.

SCHOOL CHILDREN'S COMPETITION

The pupil's exhibit at the fall Fair seemed to attract a great deal of attention. Some excellent collections of weeds, weed seeds, wild plants, leaves, and injurious and beneficial insects were very tastefully gotten up and gave evidence that the pupil had taken great pains in gathering the various specimens and mounting them in such a careful manner. These collections of nature subjects and suggestive things from the outside world will be helpful as a

(To Be Continued.)

Falling Up Out of a Balloon.

If a man falls out of a rising aeroplane or balloon he will not go toward the earth, but will continue rising into the air for an appreciable time. If the air machine were stopped in its ascent at the time it could catch the man as he came down. If the airship were ascending at the rate of thirty-two feet a second the man would rise sixteen feet before beginning to fall toward the earth. Thus, by reducing the speed of its ascent, the vessel might keep by the side of the man and rescue him. The reason why the man rises is the same as the reason for a bullet's rising when shot from a gun into the air—both the man and the bullet are given a velocity upward, and it takes some time for gravity to negative that velocity. —Harper's Weekly.

Side Issues.

"Brother Hardesty, how much are you going to give for the support of the gospel this year?"

"Why, Brother Asken, if I ain't helpin' to support it when I give \$15 to the organ fund, \$9 to the chandelier fund, \$5 to the carpet fund, donate two tons of coal, chip in for the janitor fund and furnish most of the groceries when we have a church supper of course I'll put down somethin'."

"How much do you want?"—Chicago Tribune.

"All right, son, all right. But when you are dealin' them four kings to me just deal me one ace also for a sort of confidence card."—Saturday Evening Post.

Big Noses in Japan.

The nose plays a very important part in Japan, owing, probably, that a difference in noses constitutes about the only distinction between one Japanese and another. The nose is the only feature which attracts attention. As there are very few large noses to be found in Japan, a lady with a large nose is regarded as one specially gifted by nature. She is invariably a reigning beauty and the envy of her less favored sisters. In all Japanese pictures in which ladies are portrayed the artists are particularly careful to make the nose of liberal dimensions. —London Telegraph.

Too Risky.

"We should close our eyes to the unsightly things in life."
"Too risky. I tried that once and slipped on a banana peel."—Washington Herald.

A man should be upright, not have to be kept straight.—Marcus Aurelius.

Her Undeveloped Sense of Humor.
"The trouble with you women," he said, "is that you have no sense of humor."
"I know it," his better half admitted. "I suppose I ought to think being married to you is a lovely joke, but I can't seem to see it."—Chicago Record-Herald.

Pa Was Right.

"Pa says you keep almost everything here," said the small son of the village editor.

"I guess your pa's about right," replied the owner of the general store.
"And pa says," continued the little chap, "the reason you keep so many things is because you don't advertise."—Chicago News.

70 YEARS OLD AND GETTING WELL

Thanks to GIN PILLS

61 MADISON AVE., TORONTO.

During the past two years, I have been suffering with Kidney Trouble—severe pains in my back at times, and with feet, ankles and legs so very swollen that I found great difficulty in moving around the house even in slippers. I am pleased to tell you, since taking GIN PILLS, the pain has gone, the swelling has subsided, and I again wear my boots—which have not been upon my feet for nearly two years. I am seventy years of age, and am now using my sixth box of GIN PILLS.

Old people with lame backs—who suffer with Rheumatism, or Kidney or Bladder Trouble—will find welcome relief in GIN PILLS. Every box guaranteed and money refunded if not satisfactory. 50c. a box, 6 for \$2.50—sample free if you write National Drug & Chemical Co. of Canada Limited, Dept. B Toronto.

JUST TO MAKE SURE.

The Scheme Looked Good, but the Old Man Lacked Confidence.

Living on a plantation fifty or sixty miles out of New Orleans is an old poker playing, chicken fighting, horse racing sportsman, who is always willing to gamble on anything and who isn't averse to gamble even when he has a shade the better of it. Not long ago a professional gambler came to him and said, "Squire, you know that Phillips man who used to play cards on the river?"

"I do."

"Well, he's showed up here with a lot of money. Now, I've got a scheme to get that money."

"Go on, you interest me."

"Well, I'll get him down here, and we'll put him into a game of poker—just the two of us and him. Then I'll cold deck him, you'll get the money, and we'll divide."

"How do you propose to do that, son?"

"Why, I'll deal him four queens, and I'll deal you four kings, and he'll bet all the money he has. All you've got to do is to bet against him, show your four kings when he's through, and we'll split the pile."

"You mean you'll deal him four queens and deal me four kings out of a cold deck?"

"That's it."

"All right, son, all right. But when you are dealin' them four kings to me just deal me one ace also for a sort of confidence card."—Saturday Evening Post.

Two of Leon's alleged confederates, Rudolph Swanson and Fred Marneek, were arrested in Chicago two weeks ago. These two men are charged with passing some of the counterfeit money.

Leon arrived in this country about three years ago. He took up a section of land near Beaumont, near Los Angeles, where it is believed the first spurious notes were made. In December, 1910, he went to Nootka Island in British Columbia, and it was charged that most of his counterfeit work came out of his plant there.

The secret service was yesterday advised that Leon was alleged to have perfected a process by which he photographed the face of a note that looked so much like surface printing that many experts declared it to have been printed from etched plate.

NOTHING TO FEAR

Methodist Conference Delegates Welcome Higher Criticism.

DEBATE WAXES VIGOROUS

Ecumenical Gathering in Toronto vindicates the Efforts of Scholars to Get at the Truth Regarding the Scriptures—British Visitors Describe Critics as Eminent Evangelical Men—Must Face Facts.

Toronto, Oct. 10.—Biblical criticism was under hot fire yesterday morning in the Ecumenical Methodist Conference, but emerged from the conflict triumphantly vindicated. Seventeen speakers took part in the liveliest discussion this conference has yet witnessed, some vigorously attacking the critics, while others defended them, and declared that the age demands truth, and the people are bound to have it. The general feeling of the conference appeared to be that there was no need to fear for the results of scientific investigation of the Scriptures.

It was significant that the British delegates who spoke were almost to a man upholders of the scholars known as higher critics, pointing out that they were eminently evangelical men.

Probably the best summary of the discussion could be given in these words of the last speaker, Rev. Dr. J. G. Tasker of the Wesleyan Church: "I hope we shall never again hear a higher critic represented as a man who exalts himself upon a pedestal of superior knowledge, and looks down with scorn upon his fellows. We have to live in the intellectual atmosphere of our own time. This age is determined to face the facts in all realms. It is determined to get at origins. Then if you are going to get at origins you must be a higher critic, because all that higher criticism means is: that you follow the stream that comes down to you a little higher up towards its source."

The discussion arose chiefly out of the essay by Prof. A. S. Peake, D.D., of the Primitive Methodist Church, which summed up the permanent results of Biblical criticism.

Arrested After Long Search.

Washington, Oct. 10.—After a search across the continent and up into British Columbia, the secret service operatives yesterday captured Albert Leon, a Russian Jew and political refugee, as he was about to leave New York for South America. Leon is alleged to be the head of an extensive counterfeiting gang which has flooded the Pacific coast with spurious \$10 bank notes during the past year.

The secret service was yesterday advised that Leon was alleged to have perfected a process by which he photographed the face of a note that looked so much like surface printing that many experts declared it to have been printed from etched plate.

Two of Leon's alleged confederates, Rudolph Swanson and Fred Marneek, were arrested in Chicago two weeks ago. These two men are charged with passing some of the counterfeit money.

In December, 1910, he went to Nootka Island in British Columbia, and it was charged that most of his counterfeit work came out of his plant there.

Leon arrived in this country about three years ago. He took up a section of land near Beaumont, near Los Angeles, where it is believed the first spurious notes were made. In December, 1910, he went to Nootka Island in British Columbia, and it was charged that most of his counterfeit work came out of his plant there.

SPORTING COLUMN.

IS LACROSSE LOSING GROUND?

Writing on this subject President Con. Jones of the Vancouver club says: "I do not think so. In answering a question of this kind, however, one can not but be influenced by local conditions. In Vancouver lacrosse never stood so high, or enjoyed such big patronage. There are more teams and better teams than ever before in the city, and there was never such patronage accorded the game in the history of the sport. The average attendance for senior league games this season in Vancouver has been 10,000, as against about 1000 a few years ago. That certainly does not indicate the sport is losing ground. I certainly think, however, that more encouragement should be given the youngsters. Lacrosse is a great game, but to be an expert at it, the boy must grow up with the stick in his hand. How many youngsters get the chance to play lacrosse in the various cities of Canada? The boy finds that it costs money to become the owner of a stick and whereas he can buy a baseball for a few cents, he naturally turns to the sport which costs him less for his recreation. That, I think, is the real reason lacrosse is not pursued more closely by the boys. The public at large want the game, and this has been shown repeatedly, but just now the crying need of the game is players, and it takes years to make players. Teach the boy lacrosse, help him to play the game, and there you have the secret of keeping up Canada's national game."

JOHN PAUL JONES

Jones is a most interesting figure in athletics, not only because he has proven to be the most wonderful middle distance runner America has ever had, but because he is credited with having developed his powers as an athlete in spite of the handicap of a frail and sickly childhood. He was at one time threatened with consumption, his physician fearing that he might not survive to reach maturity. Not pleased with the prospect he set about strengthening his body and lungs, took up running, and this year succeeded in establishing two new intercollegiate records, one of these being a new world's amateur record for the mile, made by Tom Conneff, at Travers Island, had not even been approached. Jones did it in 4 minutes, 15 2-5 seconds, after having already set a new intercollegiate mark of 1 minute 54 4-5 seconds for the half-mile on the same afternoon.

The mile record was partly due to good competition. Paul, of Pennsylvania, and Hanivan, of Michigan, both being expected to do better than 4:20. They set a hot pace, but Jones ran away from them easily in the finish. Earlier in the season he had shown his speed by defeating Paul in the Cornell-Pennsylvania meet, running the mile in 4:18 4-5, one second slower than the previous intercollegiate record held by Paul.

Jones had also taken the latter's measure at the U. of P. Relay Carnival when each ran the last lap of the

four mile relay championship. Starting the last mile, Paul had a good lead, only to be beaten by yards at the finish. It is due to Jones and his speed that a new four-mile relay record was made upon that occasion.

When the railway between Moscow and St. Petersburg was opened, an old peasant determined to take a ride on it to "Mother Moscow." The down express and the up express met at B. goe—half-way between St. Petersburg and Moscow—and the passengers of both trains were allowed half an hour for supper. Among the people who alighted from the other train, the old peasant recognized a friend whom he had not seen for a long time. They had a delightful chat together over their tea in the restaurant, and then, without any thought of what he was going, the old peasant boarded his friend's train instead of his own. The talk was very merry for some time, but at last the old man became grave and silent, and appeared to be puzzling deeply over something. At last he broke out: "Ah Ivan, what a wonderful thing are these railroads. Here we sit in the same car. I going to Moscow and you to St. Petersburg!"

MINISTERS NAMED

Announcement of Personnel Delayed Till Midnight.

FORGET DECLINES PLACE

Montreal Financier Prefers to Wait Until Case of Banque Internationale Has Been Dealt With—Col. Sam Hughes Takes Militia, White Finance, and Cochrane, Railways—Monk Succeeds Pugsley.

Ottawa, Oct. 10.—The Borden Cabinet will be sworn in at noon today, as follows:

R. L. Borden—Premier and President of the Council.
Martin Burrell, B.C.—Minister of Agriculture.

Dr. J. D. Reid, Ont.—Minister of Customs.

W. L. White, Ont.—Minister of Finance.

W. B. Nantel, Que.—Minister of Inland Revenue.

Robert Rogers, Manitoba—Minister of Interior.

J. C. Doherty, Quebec—Minister of Justice.

T. W. Crothers, Ontario—Minister of Labor.

Hon. J. D. Hazen, New Brunswick—Minister of Marine and Fisheries.

Col. Sam Hughes, Ontario—Minister of Militia.

F. D. Monk, Quebec—Minister of Public Works.

Hon. Frank Cochrane, Ontario—Minister of Railways.

Hon. George E. Foster, Ontario—Minister of Trade and Commerce.

L. Pelletier, Quebec—Postmaster-General.

Dr. W. J. Roche, Manitoba—Secretary of State.

Without portfolio, A. E. Kemp, Ontario; George Perley, Quebec; Senator Loughheed, Alberta.

A seat in the Cabinet was offered to Rodolphe Forget of Montreal, who declined it for the time being as the granting of a certificate to the Bank International, in which he has a large interest, will come immediately before the consideration of the Government.

The list was incomplete up to a late hour, unforeseen complications having developed Sunday and yesterday.

These difficulties were smoothed out last night, and at midnight the official list had been sanctioned by the Governor-General.

Daylight Robbery.

Chatham, Oct. 10.—Thieves picked the combination of the Aberdeen Hotel safe Sunday afternoon in broad daylight and walked away with over two hundred dollars in cash, undetected. Calixte Bechard, proprietor of the establishment, was in the hotel at the time but the robbery must have been committed in a very few minutes while Mr. Bechard was upstairs.

For some time Mr. Bechard had been missing small sums from the safe, but in the hope of catching the thief, he said nothing about it, keeping a close watch on the quiet. Last week \$50 was missed in one day. Mr. Bechard did not know at that time just how the money was taken, but now he is positive that the thief knew the combination and opened the safe.

Russians Threatened Conflict.

Teheran, Oct. 10.—The National Council decided yesterday to confiscate the property of Shua-E-Sultaneh, brother of the ex-Shah of Persia, and one of his strong supporters in his recent attempt to regain the throne. Gendarmes were sent to take possession, but they were opposed by a body of Cossacks, headed by two Russian consular officers, who threatened to open fire. Thereupon the gendarmes withdrew.

The matter was referred to the Russian Minister, and if the Minister does not arrive at a decision by ten o'clock this morning, the Persian treasurer-general will take definite action.

A Foxy Swindle.

New York, Oct. 10.—Frank J. Dorlan, cashier of the Hotel Manhattan for the last twelve years, who is alleged to have stolen sums aggregating \$10,000 from the hotel, was yesterday sentenced to serve from five to ten years in Sing Sing. He was convicted on three specific accounts, charging him with stealing \$222, \$900 and \$11,500.

Dorlan's method was to extract from the cash the exact amount of a check received from a patron for his hotel bill. Thus the proper balance would be shown at the end of the day, the check counting against the abstracted sum.

Spanish Losses In Morocco.

Madrid, Oct. 10.—The Spanish losses in the engagement between the Spanish columns and tribesmen in the Kert River region, Morocco, on Saturday, were 36 killed and 109 wounded.

The Spanish columns, in resuming operations against the hostile tribes, advanced ten miles inland, burning the houses and driving the tribesmen from their positions. But they met with determined resistance. The operations were directed by the Minister of War in person.

A Youthful Robber.

Kingston, Oct. 10.—In broad daylight, a 10-year-old lad walked into the home of W. Linton, took \$3 out of a purse on the hall-tree, put the purse back in its place, and walked out. Members of the household heard the door slam, and, running to the door, saw the lad getting away. The boy is under arrest, having been identified by Mrs. Linton as the thief. He was caught twice before stealing in houses.

No Foul Play.

Ottawa, Oct. 10.—The coroner's jury enquiring into the death of J. Frederick Fraser, former light commissioner of the Marine Department, decided that the deceased died from cyanide poisoning, probably self-administered. There was nothing in the evidence to support the theory of foul play or the sensational stories sent from Ottawa on the affair.

WILL NOT EXPEL THEM.

Italians Will Be Allowed to Remain in Turkey.

Rome, Oct. 10.—It is semi-officially announced that, following the intervention of the German ambassador, the Ottoman Government suspended the order for the expulsion of Italians from Turkey. It is expected that the Government will now abandon the measure altogether.

Must Know Conditions.

Berlin, Oct. 10.—The Cologne Gazette, in an inspired Berlin despatch, says that the Turkish note cannot be complied with until the conditions are named, whereupon the cessation of hostilities might be successfully attempted.

It is assumed that Turkey finally will declare her readiness to turn over Tripoli to Italy, while retaining the external signs of power, and that Italy will interpose no stout resistance to peace negotiations.

Should Omit Grain.

Constantinople, Oct. 10.—The German ambassador is urging the Porte to publish a definite statement as to what articles will be treated as contraband of war, and advising the exclusion of cereals from the list, on the ground that to make cereals contraband would offend Russia and Great Britain, but not seriously affect Italy.

BRIEFS FROM THE WIRES.

David Copper, a leading business man of Welland, is dead.

Britain's latest and largest Dreadnought was launched yesterday.

Mr. Borden will submit the names of his new Ministry to Earl Grey to-day.

Natural gas and petroleum have been struck in Delaware Township, near London, Ont.

Alfred Meaken, who escaped from the Central Prison, has been captured at London, Ont.

J. W. Dick of Toronto died from the injuries he received Saturday evening at the hands of an unknown man.

Two men were killed as the result of a premature blast at a cutting on the new C.N.R. at Colwood, B.C., yesterday.

A special trolley car jumped the track on the Gray's Ferry Bridge, Philadelphia. The motorman was drowned.

Victoria University observed its 75th anniversary by conferring honorary degrees on a number of conference delegates.

Cornelius N. Bliss, former U. S. Secretary of the Interior, and ex-treasurer of the Republican national committee, died in New York yesterday.

Harry Hall, a driver for the Canadian Express Co. at Hamilton, has been driven out of his mind over the recent robbery in which \$8,000 was stolen.

The Danish steamer Canada arrived in Buenos Ayres from Gulfport via St. Thomas, has had an outbreak of fire in her bunkers, and the fire has spread to her cargo.

The derelict steamship A. L. Hopkin, abandoned by her crew in Lake Superior ten days ago, has been sighted awash in the track of navigation between Ashland and Keweenaw Point.

The old stepping-stone, which for 700 years stood in the public square in Hingham, England, was presented to Hingham, Mass., last night in honor of the people of the English village, by Hon. James Bryce.

Home Rule Fight Begins.

London, Oct. 10.—Right Hon. Walter Long, in opening his anti-home rule campaign at Darlington yesterday, pointed out that self-government upon the lines of Canada and Australia meant virtual separation. Couldn't Canada to-morrow, if it chose to do so, throw off the British flag? They knew perfectly well that all the soldiers and sailors in the world, and all statesmen could not prevent Canada, Australia or South Africa taking their own line.

These great colonies had no intention of doing anything of the kind, for they love the Mother Country, and meant to stand by her. That was true, but wise people ought not to be content with securities of that kind in certain circumstances. They would regret it with bitter tears if Canada or Australia or the Union of South Africa were to leave the Mother Country, but it would not interfere with the security of her defence.

But was it so with Ireland? Could they regard the prospect of the separation of Ireland with the same comparative equanimity as they do that of the colonies? Ireland was part of themselves. She was as much a part of the Mother Country as Lancashire or Yorkshire or Durham.

A Big Difference.

Washington, Oct. 10.—A discrepancy of over \$3,228,271 between the material on hand and that called for by the books of the Washington navy yard was shown by the inventory of that yard just completed, according to an announcement by Secretary of the Navy Meyer yesterday. This is the first inventory of record made at this yard within the last 23 years.

The Navy Department officials stated explicitly that there was no indication whatever that moral turpitude was involved in the discrepancy and that it undoubtedly was due to the antiquated bookkeeping methods.

To Improve the Service.

Montreal, Oct. 10.—Mr. Stephen Furness, brother of Lord Furness, and general manager of the Manchester Lines, Ltd., arrived here on Saturday by the Allan Line steamer Victorian. Mr. Furness expected a big improvement in the trade of the company with the port of Montreal, and the object of his visit is to investigate facilities for an additional Manchester steamer.

Motorman's Watch Magnetized.

Detroit, Oct. 10.—Investigation by the Detroit United Railway officials verified the belief of Motorman Harry Uber that Saturday night's collision at Young's curve on the Flint division of the railway, in which two were killed and 12 injured, was caused by Uber's watch having become magnetized.

Superintendent Bullen gave out an official statement to this effect yesterday.

VISIT IS POSTPONED

Duke of Connaught Will Not Go at Once to Montreal.

IS HAVING A FINE TRIP

His Royal Highness Declines to Make Official Statement Because Earl Grey Is Still in Office—Will Visit Important Eastern Cities Soon After Their Arrival—Montreal Is Not Ready to Receive Duke.

Montreal, Oct. 10.—The Montreal Star yesterday published the following wireless despatch:

"On board the steamship Empress of Ireland, via Malin Head, 9th.

"Fine weather continues to attend the Duke of Connaught's trip across the Atlantic. The duke and his party are proving themselves the best of sailors and are enjoying every minute of the time aboard ship.

"The Star's correspondent was granted an informal chat with His Royal Highness. He found the duke to be most affable and eager to discuss Canadian affairs. His Highness is apparently losing no opportunity to acquaint himself with conditions in the Dominion.

"Upon being asked if he had any message that he would like to send to Canada in advance of his arrival there, he replied:

"No, I could not give you an official message of any kind, as that would be contrary to etiquette. Earl Grey being still in Canada, official messages can only come from Ottawa.

But everybody knows that I am most glad to return to Canada, whose acquaintance I first made 42 years ago, and renewed in the nineties, while on my way to India. I shall be delighted to be in the Dominion once again.

"I am officially informed that the winter program of Their Royal Highnesses will include visits to the important cities in eastern Canada. The dates are at present unfixed.

"I have also been requested to state that the duke is not going up to Montreal, on his arrival at Quebec, because he feels that he could not do a visit to that city justice in the present circumstances of his divided establishment. He will, however, make an official and formal visit to Montreal at the earliest opportunity.

"The duke is most popular with the passengers and the staff aboard ship. There is no attempt to isolate him from the other passengers, and he is a familiar figure on the promenade deck."

Visit Postponed.

Montreal, Oct. 10.—The Duke of Connaught will not visit the city of Montreal until November 1.

This was the information received yesterday morning by the mayor and Ald. Dandurand, chairman of the reception committee.

Sometime ago when it was found that the repairs to the City Hall would not be finished in time to receive the duke on his arrival in Canada, Mayor Guerin wrote to Ottawa asking if it would be possible to arrange a postponement of the new Governor-General's visit to a later date. Yesterday at noon the reply was received, stating that the duke had been made acquainted with the position of affairs and would delay his visit accordingly.

By that time the new floor on the second storey, where the mayor's office and council chamber are located, will be finished and a special carpet that is being prepared for the occasion will be ready.

Hydro Power Popular.

Thamesford, Oct. 10.—Only one vote was cast yesterday against two by-laws in connection with the purchase of Niagara power from the Hydro-Electric Commission. One bylaw was the purchase of the power from the province instead of from Ingersoll, and the other was for raising the funds—about \$6,000—needed for the installation of the local plant and its appliances. In both cases the vote showed 55 in favor of and 1 opposed.

Hitherto the electrical energy used here has been transmitted from Ingersoll and the price to be paid under the new conditions, \$48 per horsepower, will be considerably less than the present cost.

It is proposed to supply Kintore power users from here and between 500 and 600 horsepower will be added to the list of the province's customers.

War on Cockroaches.

Montreal, Oct. 10.—The triple-distilled war spirit of Tripoli has fired the Roman spirit in the hearts of Montreal's Board of Control and they are resolved to make war upon an army of cockroaches which Ald. LaValle and La Pointe have assured them have taken possession of St. James' market to the exclusion of trade and the public health. Dr. LaBerge of the Health Department and Market Inspector Biron have reported that the historic market place is in the hands of the bugs and that the honest tradesmen are fleeing in terror from their stalls and taking to the tall timbers, while the cockroaches are hauling down flags in the shape of price tickets wherever found.

Shooting Accident.

Richmond, Que., Oct. 10.—A shooting accident occurred here yesterday morning, resulting in the death of Frank Dresser, insurance agent, of this place. The particulars of the shooting have not been learned, but one story is that the young man, who intended going hunting, was standing in the door of his house, when his gun was accidentally discharged. The contents entered his body and he died in a few minutes.

Sunk With All on Board.

Boston, Oct. 10.—The sinking of an unknown British barkentine, said to have hiled from Bridgeton, N.S., off the entrance to the Bay of Fundy, on Sept. 30, with all on board, was reported yesterday by Captain Goodwin of the fishing schooner Good Luck.

TO TRY INVADERS.

Portuguese Parliament Will Arrange For a Tribunal.

Lisbon, Oct. 10.—Both Chambers of Parliament have been summoned to meet in extraordinary session on Oct. 16. The Government will then ask that paragraphs 20 and 21 of article 3 of the constitution be suspended and a special tribunal be constituted for the immediate trial of those charged with political offences.

This is the Government's response to the Monarchist invasion of Northern Portugal. Awaiting trial are 600 political prisoners and to these others are likely to be added in the next few days. Col. Alberto da Silveira, former commander of the police, was yesterday appointed Minister of War, succeeding Gen. Pimento Castro, resigned.

According to last night's news the Royalists are entrenched in the mountainous district of Serra da Corroa, within less than a mile of the Spanish frontier, and so able to retreat if necessary, into neutral territory. Two regiments of infantry, a squadron of cavalry and 400 soldiers landed from the warships at Oporto, are pressing the Monarchists, with whom there are occasional skirmishes. The Government feels somewhat hindered, as it does not wish to annoy Spanish susceptibilities by fighting near the frontier.

Monarchists Retreating.

Oporto, Oct. 10.—Latest official advice says that the Monarchists are retreating, having abandoned Carrazes yesterday and taking refuge a mile from the frontier to the northwest of Vinhaes. The Government column in pursuit is closing in upon the Monarchists. Oporto is quiet.

Colored Porter Indicted.

Chatham, Oct. 10.—At the fall assizes which opened here yesterday before Hon. Mr. Justice Falconbridge, the grand jury brought in a true bill for murder against Charles Hurst, the colored porter, who is charged with slaying of Thomas Brown (white) on August 1 last. Hurst's trial will proceed to-day. O. L. Lewis, K.C., will act for the defence, and William Meredith, K.C., of London, will be crown counsel. The killing of Brown came as a tragic climax to the last emancipation celebration held in Chatham. At the inquest witnesses testified that Hurst beat the white man over the head with his fists till he fell to the ground. Brown afterwards died from fractures of the skull.

The grand jury will be next asked to consider the depositions in the case of Rex v. Thomas Griffith, for the alleged murder of his brother-in-law, Orlando Arnold. Arnold died from injuries claimed to have been inflicted in an assault upon him by Griffiths on July 13 last. If a true bill is brought in this case, Griffith will get his trial at the spring assizes.

Caused by Children.

New York, Oct. 10.—Two thousand violations of the fire regulations were committed in the ten-story building in Washington place, where 145 employees of the Triangle Waist Co. lost their lives by fire last fall, it has been disclosed by prolonged investigation, it is charged by chief of the fire department. He made the charges before the budget committee of the board of estimates in a plea for increased appropriations.

Fire Commissioner Johnson desires to establish a bureau of fire prevention. He said that the majority of fires were due to the ignorance of the foreign population of the city. "Matches," he said, "cause 2,000 fires a year. Parents allow their children to play with fire, and they are not educated to the danger. And we have a larger number of incendiary fires than the public has any idea of." He asked for an appropriation of \$3,800,000.

Strike on G.T.P.

Winnipeg, Oct. 10.—Three hundred and fifty Grand Trunk Pacific machinists and boilermakers between Westfort, Ont., and Edmonton, Alta., will go on strike today, their claim being for an equal scale with similar trades of the Canadian Pacific and the Canadian Northern Railways, which is nine hours at 45 1/2 cents an hour. A board of conciliation was formed a couple of months ago, consisting of Wallace Nesbitt, K.C., Toronto, for the company; T. J. Murray, Winnipeg, for the men, and Dr. Sparling, Winnipeg, chairman.

Mr. Nesbitt has never attended and has twice resigned.

Dr. Sparling wired Premier Borden yesterday, asking for another appointment in Nesbitt's stead.

Prize For Peace Essays.

Mohonk Lake, N.Y., Oct. 10.—The Lake Mohonk Conference on International Arbitration announced yesterday the opening of its third annual prize contest for the best essay on international arbitration for an undergraduate male student of any college in the United States or Canada.

The prize of \$100 is given by Chester Dewitt Pugsley. The conference also announced two prizes of \$200 and \$100 given by Mrs. Elmer Black of New York, for the best essays on international peace by undergraduate women students of colleges in the United States.

Charged With Manslaughter.

Quebec, Oct. 10.—Judge Angers has returned from Rimouski, where, on Saturday Eugene Banville was placed under arrest and brought before him to answer the charge of manslaughter. It will be remembered that an English impresario, named Causton, manager for Mark Hambourg, the pianist, was shot and killed while boarding a train at Rimouski for Halifax. Banville admitted having fired a shot into the air at a political demonstration at the time. Preliminary investigation will open on the 19th inst.

Preston to Attend Durbar.

Brantford, Oct. 10.—T. H. Preston of The Express announced here yesterday that the circumstances which rendered his going to the Royal Durbar at Delhi as the representative of the Canadian newspapers improbable, had been in part removed and that he would likely make the trip. The Dominion Government will pay Mr. Preston's expenses.

MY LADY'S COLUMN.

MASSAGE FOR WRINKLES

The amount of young women one sees nowadays with double chins, and faces all lined and wrinkled, is simply amazing; at first sight one would imagine, judging from the latter, they were people bearing heavy sorrows; but no, they are perfectly happy, enjoying lives of peaceful tranquility. They arise in the first place from too relaxed muscles. A relaxed muscle loses its natural form, causing the part of the body it covers to lose its curved and rounded contour, and gives rise to wrinkles and "sagging" of the flesh. The results are disastrous to beauty, youthful freshness, and to the charm of soft curves and rounded outline. The muscles of the face suffer more than any others from lack of proper development.

The best aid to this muscular development is massage; by a judicious movement, the muscles are stimulated, and rid themselves of unhealthy particles which are apt to accumulate.

Possides this it greatly encourages the formation and building up of flesh tissue. As to the mode of massage, "chacun a son got," as the old French proverb has it; some women prefer using their finger tips, while others substitute a massage

COQUETTISH SMALL CURLS

The psyche knot is now placed midway the back of the head. With this mode the front hair may be worn in either of two ways. It may be brushed up well over a small roll or brought down over the forehead with coquettish small curls.

ball, which, perhaps, is more efficient.

The following is an easy way of making one. A short piece of wood about a foot in length is requisitioned; a fairly thick wooden knitting-needle will answer the purpose well. This wooden rod acts as a handle, and the end on it is arranged for purposes of massage. Over this end is fastened a soft mass of cotton wool, about the size of a ping-pong ball, and this is held in position by soft covering of chamois leather, tied firmly with a piece of ribbon or string. The chamois leather must be of the softest possible character. An excellent substitute is a piece of soft kid or suede such as that which can be taken from the upper part of a long white evening glove. The inner surface, i.e., that which, in the glove was in contact with the arm, should be used to form the outer surface of the massage ball. This little ball dipped in a good cream, and gently rubbed over the wrinkles, will work wonders. Care, of course, must be taken in the choice of the cream; only those of excellent and standard quality should be used, but as it is not always easy to procure this a very good preparation can be made at home. Mix a little rose water with an ounce of oil of almond, and then add drop by drop a very little oil of tartar, shaking the mixture well before each addition. A little glycerine will add to its efficacy for some skins, but this can only be ascertained by experiment, as glycerine sometimes produces irritation and redness.

As a variation, which is always to be recommended, the following is excellent: Three ounces of oil of sweet almonds is mixed with one ounce each of white wax and spermacete. These latter ingredients must be melted first, and well stirred into the almond oil. While still hot enough, rose or orange water is stirred in to make the whole into a smooth cream. A few drops of a favourite scent may be preferred by some, while a trace of tincture of benzoin will act as a preservative. These creams are really excellent for face massage, but another may be recommended for the arms and shoulders as a greater quantity is needed. Put half a pound of the very best lard in a basin and wash it well in successive quantities of boiling water; repeat this process two or three times, and each time pour the water off. Then beat the lard into a cream with a fork, and add a little oil of sweet almonds and rose water if preferred. This cream may be scented with a touch of some favourite essence, such as lavender or bergamot. These three preparations will become very popular, if used constantly, by reason of their great emollient and eradicating powers.

Eye-Water for Weak or Red Eyelids

Put an ounce of orris root, and an ounce of white copperas into three pints of running water—that is, spring or water which flows from a brook or rock. Let it stand for two or three days, shaking occasionally well together. Bathe the eyes with a linen rag dipped in the lotion three times a day. Keep it in bottles, out of the way of children; copperas is poisonous.

Probably a woman hates to tie just because she doesn't fancy the idea of joining the silent majority.

Makes the Hair Beautiful

At last a remedy has been discovered that will positively destroy this pest.

That dandruff is caused by germs is accepted by every sensible person.

Dandruff is the root of all hair evils.

SALVIA will kill the dandruff germs and improve Dandruff in ten days, or money back. 25c a bottle at Davison's Drug Store. 8

PORT HOPE, OCT. 10 1911

PERSONAL

Mr. Will Garner, of Hamilton, spent Sunday with Mr. and Mrs. V. J. Carruthers, Peter street.

Mrs. Hugh McMoran and daughter, have returned from a very enjoyable visit in St. Hyacinthe, Que.

Mr. J. A. Culverwell the Power King went to Toronto, by automobile on Monday, the guest of friends.

Mrs. Aisthorpe and Mrs. Frank Fisk, of Toronto, are visiting Mr. and Mrs. J. A. Boundy, Cobourg Road.

Miss Susie Floody, of Toronto, and her friend, Miss Edna Crossen, of Vancouver, spent Sunday with Miss Floody's mother, Elgin street.

Mark Twain's Works.

If you are interested in obtaining a complete set of all his books at one-half the former price, on the easy payment plan, it will cost nothing to get full particulars and a new thirty page book, "Little Stories About Mark Twain." Address 409, GUIDE OFFICE

PIANO TUNING.—If your piano requires tuning have Mr. J. R. Moran attend to it at once. Work promptly done and guaranteed. Orders may be left here or at Col. McLean or at W. A. Russells, Music stores.

THE BANQUET.—Keep Friday evening, Oct. 20th, open for the Old Countrymen's Banquet, in the Queen's Hotel. A fine program has been arranged. Tickets may be secured from C. Doughty, J. Leach, J. Thomas, or J. Owens.

WERE REMEMBERED.—A number of the friends of Mr. and Mrs. Percy Rowden gathered at their home last Friday evening and presented them with an address and a beautiful chair, the occasion being the fifth anniversary of Mr. and Mrs. Rowden's marriage.

READY.—The Autumn Wall Paper season is here, and "Carruthers, the Paint Man," is ready for the rush. All the new patterns are in stock and the variety of colorings excels anything we have ever seen. If you are thinking of fixing up any of your rooms for the winter months, call at Mr. Carruthers' store, in the St. Lawrence Block, where every thing in the line of decorative material may be secured.

IT HAS MANY QUALITIES.—The man who possesses a bottle of Dr. Thomas' Electric Oil is armed against many ills. It will cure a cough, break a cold, prevent sore throat; it will reduce the swelling from a sprain, and cure the most persistent sores and speedily cure cuts and contusions. It is a medicine chest in itself, and can be got for a quarter of a dollar.

MR. GOULD'S OFFER

Was Turned Down by the Guarantors—Another Man Wants It.

Mr. Gould's offer of \$5,000, to be paid in ten instalments of \$500 each without interest, for the Tie Factory building, and to grant exemption of taxes on said building, was not accepted by the guarantors. A gentleman is in town, desirous of securing the building for manufacturing purposes. Mr. Gould refused to state for what purpose he wanted the building.

Guy Bros. Greater Minstrels

Manager Steen of the Grand Opera House is to be complimented on securing Geo R Guy's famous company this season. This attraction is one of merit and sure to please everyone. The musical numbers are all new, while the production this season is an entire change from former years. The first part entitled The Yacht Club is certainly wonderful; all the members decide to spend a pleasant evening and call on the colored waiters to amuse them, which they certainly do from their entrance to the grand finale, and the audience is kept in laughter. The Olio cost a lot of money to present and all is put on with special scenery and effects. Don't miss the big treat at the Opera House TO-NIGHT. Seats on sale at Steen's Cut Store, prices 35c, 50c, and 75c. Gallery 25c to all.

Marks—My wife manages nicely on the alimony she gets. Parks—Why, I didn't know you were separated. Marks—We aren't. I refer to alimony she wins at bridge from Mrs. De Vorsay.

Notices of Births, Marriages and Deaths, Fifty Cents. "In Memoriam" Notices from 50 cents up, each insertion.

BORN

GOULD—At Port Hope, on Oct. 7th, 1911, to Mr. and Mrs. J. B. Gould a daughter, (Dorothy Ida).

DIED

MARTIN—At 4 p.m., Sunday, Oct. 8th, 1911, Alfred James, beloved husband of Elizabeth Martin, in his 77th year, at his daughter's residence, 253 Bartlett avenue, Toronto. Service will be held Tuesday evening at 8 o'clock at the above address. Body will be conveyed to Port Hope by 9 a.m. train Wednesday morning. Interment on arrival there.
